MAYZA FERREIRA

Front-end developer

ABOUT ME

Hi, I'm Mayza, a frontend developer who enjoys creating engaging and user-friendly experiences. I have a background in computer science and a strong passion for coding. I aim to build high-quality solutions that combine functionality with an aesthetic appeal.

EDUCATION

Computer Engineering (Ingeniería en Computación)

Universidad de la República | 2022 - Currently

Educación Media Tecnológica

Escuela Superior de Informática Buceo (ESI) | 2018 - 2021

- Degree project Database admin and UI design
- Grading of the degree project: 12.0

COURSES

Certified Tech Developer (Frontend Specialization)

Digital House, Mercado Libre & Globant | Oct 2024 - Present

Currently enrolled in the Certified Tech Developer program, focusing on frontend technologies like React and Next.js, with an emphasis on practical skills, Agile methodologies, and best practices like Clean Code and accessibility.

Full Stack Week

Full Stack Club | Aug. 2024 (7 days bootcamp - 16hs total)

Built a barber service reservation app using Next.js, React.js, and Node.js. Gained practical experience with TypeScript, PostgreSQL, Tailwind CSS, and ShadCN. Used Prisma for database interactions and explored full-stack development concepts.

UY Introducción a UX y UI - FT Ed 2

Fundación Telefónica - Conecta Empleo | March 2024

Gained essential UX/UI insights and practical skills in design thinking, Lean UX, SCRUM, and tools like MIRO and FIGMA.

SheCodes Pro

SheCodes | Jan. 2023 - Aug. 2023

Learnt advanced front-end development techniques and how to build responsive websites.
